

TouchHolland

Travel agencies & tour operators

I help you plan private visits in the Netherlands. Together, we choose the route, language and pace to suit your programme and your travellers.

Private visits · cities · water · countryside

Local knowledge. Direct communication.

Goulven

I have worked as an independent guide in the Amsterdam region for several years. I already work with travel organisers and draw on a local network built through my guiding work.

For which travellers?

Couples, families and private groups seeking a guided visit at a considered pace. Routes are planned around cycling confidence, interests and the wider itinerary. Walking or public-transport options can also be discussed.

What you plan together

Destination, meeting point, language, breaks and any additional services. Goulven is the main guide; additional guides for larger groups are subject to availability.

Visits in French or English. Other languages and languages of additional guides: please discuss with me.

Two formats. Many ways to explore.

Half day • up to 4 hours

A focused visit that fits into an existing itinerary. Possible starting points include Amsterdam's neighbourhoods or an exploration of Rotterdam through its architecture and harbour spaces.

Full day • 8 hours

Time to connect different settings and take proper breaks. One possible route pairs Amsterdam with Waterland's villages and waterside scenery. Transfers and lunch arrangements are detailed in the quote.

Combine several days

Pair an urban day with countryside exploration, or discover another city. Each day is planned to avoid repetition. Accommodation and transport between destinations are not included as standard.

These are route examples, adapted to the starting point, season and abilities of the group.

A clear programme, before confirmation.

01 Your brief

Dates, starting city, group size and ages, language, cycling confidence, interests and timing constraints.

02 The proposal

Proposed route, duration, staffing, guiding and priced options. Local encounters and third-party services remain subject to availability.

03 Confirmation

The quote specifies the total, inclusions, applicable VAT, payment and change or cancellation terms. The booking is confirmed with Goulven.

04 Before the visit

Meeting point, equipment and schedule are shared. Weather, pace and alternatives are discussed in advance; departures in all conditions are not guaranteed.

Quoted separately: bicycle or e-bike rental, meals, admission tickets, transfers, accommodation and special requests.

Let's talk about your project.
